

Instructions for connecting to the Samsung Tablet Hotspot

1. Power on the tablet by holding the home button until the screen comes on.
2. Swipe up to unlock the screen. Turn on Mobile Hotspot at the top of the screen. Locate the Verizon network name and password.
3. Power up your device (Macbook, Chromebook, etc) and find your network settings. (See below)
4. In network settings locate the Verizon network and click to open it.
5. The first time you connect you will need to enter the password which is displayed the Samsung tablet below the Verizon network name.
6. On your computer enter the password when prompted, then click join. The next time you connect this device to the hotspot you should not need to enter the password.

Instructions for connecting a Macbook to a network

1. Open System Preferences and click on the Network icon.
2. Make sure Wi-Fi is highlighted in the menu bar on the right side of the window. Next to Network Name open the drop down menu and select the Verizon network found on the Samsung tablet.
3. Enter the password found on the tablet into the proper area in the pop up window.
4. Click Join.

Instructions for connecting a Chromebook to a network

1. Open settings by clicking on the wi-fi icon in the task bar on the lower right side of the screen.
2. In the window that opens, Click the down arrow next to the Wi-Fi symbol.
3. Find the Verizon network and click on it.
4. In the "Join We-Fi network" window enter the password found in the Mobile Hotspot window on the tablet. And click connect.
